Met Office Aberdeen Meteorologist's View
High risk of sunburn in exposure, particularly in west during the afternoon.

Forecast for Sunday 25 Jul 2021
Weather: Similar to Saturday with the vast majority enjoying another fine, dry, increasingly sunny, warm day. However a further risk of some lower cloud in far north and south early and late in the day.

Maximum wind: Variable, mostly easterly, 15mph or less.

Chance of cloud free mountain/hill tops above 800m: Near 100% with the early and late lower cloud expected to be confined below this level.

Visibility: Generally good or very good, but very poor in lower cloud early and late in far north and south where cloud could be quite extensive for a time between 100 and 300m.

Temperature: **Glens:** Plus 7 Celsius increasing 25 Celsius for a time during the afternoon
At 800m: Plus 12-15 Celsius increasing 18 Celsius for a time during the afternoon
Freezing level: Well above all summits
